Mumbai, India

**Accountancy Profession:
Catalyzing Reforms, Creating Values**

The Jamshed Bhabha Theatre
NCPA, Nariman Point, Mumbai

The Institute of Chartered Accountants of India
(Set up by an Act of Parliament)

About ICAI

The ICAI has been a partner in India's development for the last seventy years and has been on an accelerated growth path since 1949.

The uniqueness of the CA profession is that the learning process never stops. It does not stop when a CA student graduates as a Chartered Accountant, but continues as he updates himself with the regular changes that are relevant to the profession. This attitude enables him to confront challenges with aplomb while moulding his personality in a holistic manner. Consequently, it paves the way for the increase in trust placed in the Indian Accountancy Profession by the various stakeholders, thus symbolizing the triumph of the Profession.

This is the reason why today ICAI has grown to more than 3,00,000 members in India and across the globe. We have a robust infrastructure comprising 5 Regional Offices, 164 Branches and 34 International Chapters. We also have more than 7,50,000 students who are being groomed to take on the mantle of becoming the elite finance professionals in the country.

ICAI has grown from being a body for professionals and professional growth to becoming a powerhouse of knowledge, invited to offer inputs to various Regulators, Government Bodies and Organisations such as CAG, RBI, Union Ministry of Corporate Affairs, SEBI, CBDT, IRDA, etc. to name a few.

Taking it further, ICAI is also invited towards assisting national organisations in Drafting of Income Tax Laws, Competition Law, Company Law, GST and Commercial and Economic Legislations, etc.

ICAI's tremendous growth is both qualitative and quantitative, thus ensuring that the Institute is always at the cutting edge of growth via harnessing all possible opportunities both national and international.

Chartered Accountants are constantly keeping track of changing developments while also upgrading their knowledge base and honing their skill sets. Thus, while holding on to the core standards and procedures, we also have to perform in a more proactive and inventive manner. The one factor that enables to achieve all three goals are seminars.

The ICAI International Conference is the pinnacle of all these programs and it will definitely provide the motivation and inspiration to all finance professionals to Catalyzing Reforms and Creating Values a global scale.

ICAI International Conference

The Accountancy profession as an integral part in the process of transition has witnessed a paradigm change in its contributory role; in every sphere of economic activity. The shift in the business philosophies due to dawn of a new world trade order emphasize a broadened role for the accounting professionals as strategy formulators and facilitators. While moving to the role of a value creator, the Institute of Chartered Accountants of India (ICAI) has endeavoured to imbibe the best practices model by analyzing the best approach as available amongst varied corporates in different parts of the world and has been playing the role of an enabler by getting the relevant stakeholders exposed to such best practices.

ICAI, recognizing its role and responsibilities to the stakeholder community at large is organizing an International Conference on the theme "Accountancy Profession: Catalyzing Reforms, Creating Values" to dwell deeper into emerging paradigm of Accountancy Profession and bring the Indian and global perspective together on issues that are of contemporary relevance. The International Conference will deliberate on the issues related to Taxation Reforms, Future of Corporate Reporting, Auditing reforms, Creation of Stakeholder Value, Technological Reforms and alike and will provide an apt opportunity to delegates to empathize the challenges and opportunities available while dealing with areas of contemporary and emerging interest in global economy.

The International Conference would be an apt platform for ideas exchange and usher interactive dialogue amongst the global and local accounting fraternity and other stakeholders and is likely to see participation of more than 1100 professionals from Pan India and Asia Pacific Region. The Conference would have renowned experts in the area of accounting and auditing from international bodies including doyens from Trade and Industry in India.

President's Message

CA. Prafulla P. Chhajed

It gives me immense pleasure to invite you all to The International Conference being organized by the Institute of Chartered Accountants of India (ICAI) on the theme "Accountancy Profession: Catalyzing Reforms, Creating Values" scheduled to be held from December 6 to 7, 2019 at The Jamshed Bhabha Theatre National Centre for the Performing Arts (NCPA), Mumbai, India.

The shift in the business philosophies due to changing global economy has broadened role for the accounting professionals as strategy formulators and facilitators. Today, the Accounting Profession plays a multifaceted and crucial role as a value creator and contributor to the economic growth. In this dynamic world, the opportunities for Accounting Professionals have increased manifold and at the same time, the expectations of stakeholders from the profession too have increased exponentially. The opportunities and challenges have necessitated deliberations on our role in creating an investment climate of trust, of significantly contributing to the economic growth and development, and aiding corporates to follow ethical business practices.

With this intent, we have conceptualized the International Conference which aims to highlight the enabling role of Accountants in catalyzing reforms and at the same time creating economic values including exploration of new pathways to accounting excellence for the next generation of accountants. The conference would be a forum of communication for academicians, researchers, practitioners, and policymakers in the areas of accounting and finance.

The topics are judiciously selected and are germane for the International Conference and the timing of this conglomeration is perfect. The stakeholders across the globe perceive a superior role for the accountants as policy formulators and as professional partners in the over-all growth of an economy. This Conference will attract participation of eminent accountants and other faculties across the globe predominantly from the emerging nations.

I am sure that the deliberations of the Conference would contribute thought-provoking competencies to all the participants of different backgrounds nationally as well as internationally viz. academics, research, practice, policy making, etc.

I hope that delegates will find the Conference both enjoyable and valuable, and experience the architectural, cultural and natural beauty of the City of Dreams- Mumbai!

With warm regards,

CA. Prafulla P. Chhajed
President

The Institute of Chartered Accountants of India

Vice-President's Message

CA. Atul Kumar Gupta

The Accountancy profession is in a very dynamic phase and is witnessing continuous change in this era of inter-connectedness. There are new challenges every time and it is pertinent to keep pace with the rapid developments. The challenges need to be dealt through reform and reinvention.

The Accountancy profession is an important spoke in the wheel of socio-economic growth of an economy. It has to play a positive and proactive role in creating an enabling environment and facilitating growth.

The most important role that accountancy profession plays as a catalyst is the trust it builds which allows businesses to flourish. Transparency and Accountability are the two pillars which contribute to the efficient allocation and management of resources and help companies to attract investment and access credit and thus be of immense value to the stakeholders and society at large.

At ICAI, we attempt to acclimatize our fraternity on various regulatory and technological trends and issues; explore to increasingly meet stakeholders' expectations and develop new ideas and thoughts for advancing financial reporting, standards setting and innovate new business models for Governance led growth. **The instant International Conference on the theme "Accountancy Profession: Catalyzing Reforms, Creating Values"** is yet another stride towards this direction.

The instant International Conference would be an apt platform for one-to-one interaction and exchange of ideas amongst the global and local accounting fraternity. The Conference aims to update the accounting fraternity to demands of a market driven economy; while being the Trustee of Public Interest. I am sure that the deliberations at this Conference would enrich our knowledge and experience.

I look forward to your participation at the Conference.

With best wishes,

CA. Atul Kumar Gupta

Vice President

The Institute of Chartered Accountants of India

About The Venue

The Jamshed Bhabha Theatre, NCPA,
Nariman Point, Mumbai.

NCPA is the most premier venue in one of the
finest business hubs of Mumbai.

With state-of-the-art facilities, it is an iconic
multi-purpose convention center of its type.

Host City

Mumbai is the financial capital of India and home to big corporates/firms and leading institutions and academicians with regulators of financial and capital markets. Mumbai is also the base of Indian film Industry namely Bollywood, about ₹ 20,000+ crore in market value. It is also the city of legendary Amitabh Bachhan, the world renowned actor and Sachin Tendulkar, the world's own renowned Indian Cricketer. Mumbai is the 30th most visited location worldwide and the 10th largest city in the world.

The city that never sleeps', 'The City of Dreams' and the 'City of Seven Islands' are few of the names used to describe the wonderful city of Mumbai. Mumbai attracts the highest number of foreign tourists and is one of the most preferred tourist destinations in India.

Mumbai houses important financial institutions such as the Reserve Bank of India, the Bombay Stock Exchange, the National Stock Exchange of India, the SEBI and the corporate headquarters of numerous Indian companies and multinational corporations. It is also home to some of India's premier scientific and nuclear institutes like BARC, NPCL, IREL, TIFR, AERB, AECL, and the Department of Atomic Energy.

The city that
has transformed into the
commercial & entertainment
capital of India.

MUMBAI

Chhatrapati Shivaji Maharaj Museum

If ever a window was required to peep into the fascinating world of art and antiquities, the Chhatrapati Shivaji Maharaj Museum formerly known as the Prince of Wales Museum of Western India, at Mumbai, would be the right place to visit. The museum has a representative collection of various forms of art from the Indian subcontinent and also to a certain extent works of art from China, Japan and European countries. Additionally, it houses a study collection of natural history specimens.

Siddhivinayak Temple

With the firm belief that nothing new should ever be embarked upon without invoking the blessings of Lord Ganesh, the Shree Siddhivinayak Ganapati Temple at Prabhadevi is understandably the most popular of places of worship in Mumbai. It was but a humble consecration by Mrs. Deubai Patil in early 19th century that is supposed to have started attracting hordes of worshippers soon after India's independence.

RBI Monetary Museum

Have you ever thought that a note of Rs 100 or a coin of Rs 5 may actually have a lot of history behind it? Yes, the currency in India has several interesting facets to it and this is amply illustrated at the RBI Monetary Museum in Mumbai which offers a fascinating glimpse into the world of money beginning from the time when emperors used gold coins to the current trend of e-money.

Haji Ali Dargah

A tomb on an island in the middle of the Arabian Sea! Doesn't that immediately sound enticing enough? But there is more to the Haji Ali Dargah in Mumbai than just its location. Such is the reverence that this Muslim saint commands that his final resting place draws the faithful from all communities who come here with the firm hope that their prayers will be answered. With a mosque located adjacent to the tomb complex, the edifice is also a brilliant specimen of the Indo-Islamic style of architecture.

Global Vipassana Pagoda

As an architectural wonder that helps promote peace and harmony, the Global Vipassana Pagoda near Gorai in Mumbai is a landmark monument that brings us closer to the philosophies and teachings of the great Buddha. It also has the distinction of being Asia's tallest stone structure that majestically rises against the background of the shimmering waters of the Arabian Sea.

Gateway of India

The Gateway of India is an arch-monument built in the early twentieth-century located in the city of Mumbai, India. The monument was erected to commemorate the landing of the first British monarch in India. The gateway is located on the waterfront at the Apollo Bunder, in south Mumbai. It overlooks the Arabian Sea and is located at an angle, opposite to the Taj Mahal Palace and Tower Hotel. Today, the monument is synonymous with the city of Mumbai, and is amongst its prime tourist attractions.

Elephanta Caves

As you stand at Mumbai's most well-known spot of tourist interest – the Gateway of India – the most overwhelming desire you will experience is to step into a boat and explore the Arabian Sea. But this need not just be a whim. It can serve a purpose too if you take the ride to visit the Elephanta Island which is just 10 kilometers from Mumbai. Not only is the island host to a bounty of nature in the form of lush plantations of palm, mango and tamarind trees but is also home to ancient cave temples that have been carved out of rock and which have been declared a World Heritage Site.
