

ReCap: The A.I. Dilemma

Summary:

The technology in the wrong hands is dangerous but in the right hands is beneficial to all.

1. Be Intentional About Risk to Humans
2. Open the Closed Box
3. Confront and Question Bias
4. Reclaim Data Rights for People
5. Hold Stakeholders Accountable
6. Favor Loosely Coupled Systems
7. Embrace Creative Friction

The 4 Logics of Power (Accounting)

	Private	Public
Individual	Engineering logic Technology AI audits	Social justice logic Humanity Forensics
Institutional	Business logic Ownership, markets, and growth Assurance	Government logic Authority and security Tax
